### The Whole Story: From Prophecy to Fulfillment

*Featuring local artist Mickey McIlrath  
The "Michelangelo on the Hill."*

McIlrath's art portrays the story of Jesus of Nazareth from prophecy to resurrection, focusing on Jesus' childhood. It is a combination of drawing and painting with markers on recycled plastic materials. Originally conceived for the Advent season, the art draws you in to the story, and is presented in a guided meditation. McIlrath has been experimenting with recycled materials in his work, and is excited to be able to show art can be "green." He will be available to answer questions about his art.
